

MSSFAI001

DCSDAV001

Assignment 1

We met on 2021/08/16. We set up accounts on Asana to manage our project.

We also set up a git repo on GitHub which can be accessed using the following link: [Git Repository](#)

Project ideas: The project outline has not yet been fully provided so we are not sure on ideas yet. As soon as we get the outline we will re-evaluate.

Meeting times: We plan to have a set meeting every week after the lecture on a Monday afternoon. There will also be sporadic meetings depending on progress and upcoming due dates.
